OY TOPPI AB

FINLAND

Paris la Défense, the 06/05/1996

N/Ref. : CP/CC/CA. 96.799

WARRANTY CONCERNING MATERIAL FOR FOOD CONTACT APPLICATIONS

Relating to EVATANE 1005 VN4

The above mentioned product only contains substances authorized :

FRANCE

by French regulation and complying to specifications in force (Secrétariat d'Etat à la Consommation, Service de la Répression des Fraudes) for the manufacture of materials intended for food contact :

JO n° 1227/94 and supplements

BELGIUM

by the "décrets royaux belges" : plastic materials intended for food contact (MB 07.24.1992 and 11.09.1993)

GERMANY

by the Bundesgesetzblatt, Teil I, Anlage 3 (1992) : "Monomere und sonstige Ausgangsstoffe, die für die Herstellung von Lebensmittelbedarfgegenständen aus Kunststoff zugelassen sind" (Bundesgesundheitsamt of Germany) and supplements

by the Bundesgesundheitsamt and in conformity with specifications in force for the manufacture of materials intended for food contact, namely :

. 193. Mitteilung, BGesundhBl. 39, 121 (1995)

. Empfehlung XXXV "MISCHPOLYMERISATE AUS ÄTHYLEN, BUTYLEN, PROPYLEN, VINYLESTERN UND UNGESÄTTIGTEN ALIPHATISCHEN SÄUREN SOWIE DEREN SALZEN UND ESTERN", except for contact with fatty food

ITALY

by the Italian ministerial decree dated March 21, 1973 (GU n° 104, April 20, 1973) and supplements : "Packaging and materials intended for food contact", Annex II - section I,

NETHERLAND

by the Dutch Warenwet (Netherlands) dated October 1, 1979 (staatsblad n° 558) and supplements

SPAIN

by the Spanish regulation : Resolution dated November 4, 1982 and supplement (additives) ;
"Real decreto 211/1992" dated March 6, 1992 and supplements (monomers)

UNITED KINGDOM

by the United Kingdom regulation "Statutory Instruments" N° 3145 (1992) and supplements (monomers)

by the Code of Practice of Bibra (1986) except contact with fatty food

EC

by the EEC DIRECTIVES 90/128, 92/39, 93/9 and EC 95/3.

Restriction for vinyl acetate, listed in Section A : Specific Migration Limit (SML) : 12 mg/kg

USA

by the FDA regulation (U.S.A.), 21 CFR, revised as of April 1, 1995

§ 177-1350 "ETHYLENE-VINYL ACETATE COPOLYMERS"

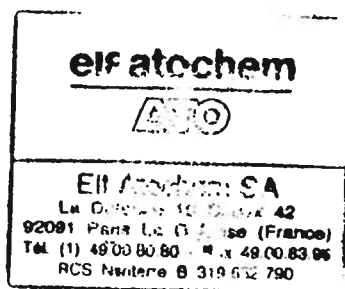

§ 175-105 "ADHESIVES"

These regulations concern materials and articles in the finished form ready to use.

Our warranty cannot therefore be extended :

- . to any further modifications in the composition of the original product, concerned by the warranty, whatever the nature of the added substance may be,
- . to any processing that may lead to a change of the nature of the material,
- . to any checking of reciprocal compatibility of the material with the food in contact, and, especially, the respect of the taste and the odour of the food.

Moreover, we recommend to verify the migration of the finished article, in case of contact with fatty food, because the vinyl acetate concentration is more than 10 %.

Engineer in charge,
C. PAILLOUX
