

Ref. 8550 Hi-Pro pad

For use with Doodlebug™ pad holder

Technical data sheet

TDS 131

Date: May 2019

Description:

The Scotch-Brite™ Black High-Productivity Doodlebug pad is a premium quality floor maintenance stripping pad, made of high quality continuous synthetic fibre, in an open textured construction. Abrasive particles are dispersed throughout and bonded with a durable adhesive.

Product Advantages:

- Excellent stripping effect.
- Very coarse and numerous abrasive particles for permanent exposure of new abrasive for a faster job.
- Flexible and open construction for effective stripping of heavy build-up, better conformability to floor surface and easy rinsing/washing after use.
- Long lasting.
- Consistent performance
- Suitable for dry or wet stripping operations
- Excellent resistance to stripping solutions and 3M Trouble Shooter

Where and When to Use:

Use the pad attached to a Doodlebug pad holder to remove marks, scuffs and stains from non-fragile floors, corners, baseboards, walls and other surfaces.

Use with 3M Trouble Shooter can even easily remove damaged floor finish without a machine in hard-to-reach areas.

Maximum use/washing temperature: 40°C.

Product Characteristics:

Colour: Black

Thickness: 12.5 mm (*)

Size: 254 mm x 117 mm

Weight: 1420 g/m² (*)

Composition: nylon web, mineral, polymer resin.

Aggressiveness: 4 g removed (*)

(Schiefer test on acrylic plate material, after 5000 revolutions with a new sample pad)

(*) Typical average values

Labelling:

Each carton shall be labelled to identify the content by product name, size and manufacturer.

Packaging:

40 pads per case.

64 cases par pallet.

Maintenance:

Remove from holder and rinse the pad after each use under tap water.

Brush the pad with a nylon brush to remove deep embedded soil if necessary.

Disposal information:

Discard into appropriate container for incineration, if available.

Origin:

Made in the U.S.A in an ISO 9001:2015 and ISO 14001:2015 certified plant.
