

KWO® Universal F Premium - ePTFE joint sealant tape

MADE IN GERMANY

KWO® Universal F Premium is a joint sealant tape made from 100% pure, monoaxially expanded PTFE and is also suitable for use in the food and pharmaceutical industries due to its approvals.

The exceptional malleability of the ePTFE joint sealant tape compensates out-of-parallel or damaged sealing surfaces and allows use with stress sensitive connections and applications where only a limited flange load is available.

Due to their reliable, durable and economical sealing, it helps to optimize our customer's production and manufacturing processes.
