Dear Customer,

Batch 2101515 of the ELERS MEDICAL product Cat 5b/6b Coverall (item N4013E) has an expiration date of January 2024, which is 3 years after the date of manufacturing. This is because in 2021 Chinese government required 3 years shelf life for exported products.

However, we can confirm that once the product has been stored in the correct conditions i.e. in a pharmaceutical warehouse for this duration, the protective properties of the product will not have degraded to the extent that the coverall is no longer safe for use, and as such, can still be worn by end users for an additional 12-24 months.

Please do not hesitate to contact the ELERS MEDICAL if you have any further questions.

Yours sincerely,

Niklas Elers, CEO
Elers Medical Finland Oy
