IDENTITY OF ARTICLE

HIPEX[®] A: extruded clear flat sheets made from APET granules.

TRADENAME

HIPEX[®] A Clear

CONFORMANCE WITH REGULATIONS

We hereby confirm that the raw materials used to extrude our HIPEX[®] A clear plastic sheets meet the requirements of the following regulations -

Regulation 1935/2004/EC of the European Parliament and Council on materials and articles intended to come into contact with food* and all amendments up to and including Regulation (EU) 2019/1381.

Regulation 2023/2006/EC (GMP) as amended on Good Manufacturing Practice for materials and articles intended to come into contact with food* and all amendments up to and including Regulation (EU) 282/2008.

Regulation 10/2011/EC on plastic materials and articles intended to come into contact with food, and all amendments up to and including Commission Regulation (EU) 2020/1245.

The monomers and additives used to produce this product are listed in the Union List of Authorised Substances of Regulation 10/2011/EC and all amendments up to and including Commission Regulation (EU) 2020/1245.

Colour modification agents are used and these are listed in the French Positive list (or Council of Europe (COE) Resolution AP (89) 1). These approved pigments do not migrate in detectable concentrations.

DECLARATION OF CONFORMITY**FOOD CONTACT**

Specific Migration Limits (SMLs) for certain substances of this material are imposed by the European Union and our raw material suppliers have confirmed compliance:

Name of Substance	Ref No	CAS No.	SML mg/kg
Terephthalic Acid (PTA)	24910	000100-21-0	7.5mg/kg
Isophthalic Acid(IPA)	19150	000121-91-5	5mg/kg
Monoethylene Glycol (MEG)	16990	000107-21-1	30mg/kg MEG + DEG
Diethylene Glycol (DEG)	15760	000111-46-6	
Antimony Trioxide	35760	0001309-64-4	0.04mg/kg expressed as Antimony
Acetaldehyde	10060	75-07-0	6mg/kg expressed as Acetaldehyde
Titanium Nitride	93485		Addition rate <20ppm
1,4-bis(hydroxymethyl)Cyclohexane		105-08-8	-

Dual Use additive

Phosphorus compound is used in the manufacture of APET granules. The compound is listed in Table 6 of Section 7 of Commission Regulation (EU) No 1130/2011 of 11 November 2011 amending Annex III to Regulation (EC) No 1333/2008 of the European Parliament and of the Council on food additives by establishing a Union list of food additives approved for use in food additives, food enzymes, food flavourings and nutrients and therefore it is a dual use additive.

*OML and SML compliance of the final application is the responsibility of the manufacturer of the finished plastic food contact material or article. In addition, we remind you that the manufacturers of the finished food contact material or article must verify that the finished material or article, manufactured according to good manufacturing practices, does not modify the organoleptic properties of the food. The user should verify applicable requirements and compliance for their own application.

SPECIAL NOTICE

We deliver plastic sheets, which are subject to further processing steps:

Machining, thermal forming, assembling, gluing and as well surface treatments as printing, polishing, etc, could influence and contaminate the product. The manufacturer or user has to verify whether the product is suitable for its final application, e.g. whether the final product might affect the taste or smell of food or whether the limitations (e.g. global migration, specific limits and other analytic requirements) are observed.

The information in this certificate is based on our knowledge and experience to date. It does not release the user from the obligation of carrying out own tests and trials, in view of the many factors that may affect processing and application; neither do they imply any legally binding assurance of certain properties or of suitability for a specific purpose. It is the responsibility of those to whom we supply our products to ensure that any proprietary rights and existing laws and legislation are observed.

As conditions and methods of use are beyond our control, we do not assume any responsibility and expressly disclaim any liability for any use of this material. Customers take the responsibility to determine that the use of our product is safe and lawful in their intended applications. The assessment of overall migration limit and other release restrictions is the responsibility of the producer of the finished article.

The information given is based on that provided to us by our raw material suppliers. Further details can be provided if required through our Customer Service Team.
