PRODUCT DATA SHEET

Item Number : WTR049

Item Name : PIG® Water Activated Flood Barriers

Contents/Package : 8/bag

Dimensions : 21,6cm x 305cm x 6,4mm

Composition : Skin - Polypropylene, Filler -Super Absorbent Polymer (SAP)

Description

- Swells on contact with water, transforming into a high-coverage, high-absorbency, long barrier that protects against flooding quickly and easily
- Place a replacement sandbag in front of an entrance to prevent floodwater entry; stack several together for even better protection
- Lightweight, compact and easy to handle prior to activation, unlike regular sandbags which are heavy, messy and labour intensive
- Wedge shape prevents barriers from rolling away
- Absorbs 23,5 L/Barrier

Warnings & Restrictions : Not for use with saltwater
