<b>Migration limits</b>	<p>Monomers and additives used for the manufacturing of this grade are not regulated with specific migration limits.</p> <p>Substances also authorised as direct food additives ("Dual use additives") are either not used for the manufacturing of this product, kind of not migrating, or only present in quantities that in case of their migration don't allow relevant contribution to exceed of the limits as set in the applicable food legislation.</p> <p>In accordance with Article 2 of Directive 2002/72/EC (as amended), the overall migration shall not exceed 60 mg/kg resp. 10 mg/dm<sup>2</sup> from plastic materials and articles.</p> <p>Compliance with the overall and specific migration limits as described above must be measured from the final packaging intended to come into contact with foodstuff by using real food or appropriate food simulants at the intended and foreseeable conditions of use as specified in Directives 82/711/EEC (as amended) and 85/572/EEC. It is the responsibility of the converter or food packer to verify that the final packaging complies with the overall and specific migration limits as set out by the applicable legislation.</p>
<b>Limits of use</b>	<p>Test samples made from this product fulfilled the extraction requirements according to FDA CFR 21 §177.1520 (c), as defined for the type of polymer described above. Therefore this product may be used in contact with all food types as described in table 1 of CFR 21 §176.170(c), under conditions of use C through G as described in table 2 of CFR 21 §176.170(c). The product is not intended for use in packing or articles holding food during cooking. It is the responsibility of the converter or food packer to control that the final packaging complies with the requirements of the intended and foreseeable conditions of use.</p>
