

TEKNIKUM OY HOSES FOOD-TEK™ 1100 AND FOOD-TEK™ 1120 PS

FOOD-TEK™ hoses use Teknikum Oy natural rubber (NR) material 164335 as innerlayer. The hose and material is in compliance with the requirements on the materials coming into contact with foodstuffs of the FDA (Food and Drug Administration, United States, paragraph 21 CFR 177.2600 (e). The hose has been tested by third party laboratory and it also conforms to the BfR (Bundesinstitut für Risikobewertung, Germany) requirements for section XXI category 2. Sensory tests for short term use show that the hose does not give odour or taste to milk. The product complies with the Article 16 Regulation EC 1935/2004.

FOOD-TEK™ hoses may be used in a short-term contact with various foodstuffs: dry, liquid, aqueous, acid and alcoholic foods with less than 99 % ethanol.
